**NEW LOOK,
NEW NAME**

Foster Tails

Some of you may remember our furry friend, Phil. He was abandoned in the neighbouring parking lot in 2018. Phil currently resides in a foster home where he has made great strides losing some excess weight, though his new family will need to closely monitor his diet so he can continue to move towards his ideal figure. He is a very playful three year old gentleman in great health who prefers short petting sessions while rubbing your legs as he's passing by. If you have any questions about Phil, please give Shelby a call at the shelter at 204-888-2266.

Above: Phil

Songs for the Stray

Eye and Ear Control Records put on a pawsome benefit concert in support of the ARC. Man Candy, Satanic Rights, and Rock Lake played some rockin' tunes, and we're devilishly grateful for the \$666 raised by the door alone! With the proceeds from the concert, raffle and donations, nearly \$1000 was raised. The ARC is extremely grateful for the generosity and support of the Punk-Rock community. Thank you to Eye and Ear Control for hosting, and to all those in attendance.

Getting Hot & Bothered

It's critical to take safety precautions during the summer months to prevent heatstroke for ourselves and our doggy friends. Unlike us, dogs have fur coats which make it difficult to cool down. Dogs can sweat through their paw pads, but primarily rely on panting to cool down.

Heatstroke can affect all dogs, but especially those short nosed, senior, obese, or those with thick fur. Symptoms of heatstroke vary, commonly including excessive panting, drooling, red gums, vomiting, and lethargy.

If your dog shows any of these symptoms, immediately remove them from the hot environment and begin to cool them down.

This can be done by placing them in an air conditioned area and wiping them down with cool (never freezing) water. Then seeking immediate veterinary attention to provide further assessment and medical care. Prevention is always key with heatstroke so ensuring that your dog always has access to water, providing adequate shade, and never leaving them unattended in a car will help to keep everyone calm and cool during these hot summer months.

Alumni Stories: Lemon Lime

Meet the very beautiful Lemon Lime. Before Lemon Lime had been rescued by D'Arcy's ARC in 2013, she had been abandoned by her previous family and had some serious human afflicted wounds that needed immediate medical attention. Shortly after her recovery she found her fur-ever family. Lemon Lime now enjoys spending her time going on walks, going to the lake and watching her human brother play baseball with the rest of the family. She definitely knows how to receive all the pets with her stunning looks and amazing, bubbly personality. Her adopted family are very grateful to have such an incredible dog as part of their family.

CANINE CHARACTERS

The Canine Character for the month of August is Becel, a shepherd mix. At the end of June, Becel was found roaming in Easterville, Manitoba and was brought to us through Manitoba Underdogs. At a little over a year old, this handsome fellow can be found sitting on the laps of the staff and volunteers at the ARC, playing with his toys, or waiting for his next treat.

Becel is a sensitive creature, and would do well with an active family who can respect his personal space when he gets overwhelmed.

If you have any questions about Becel, give us a call at the shelter at (204) 888-2266.

VOLUNTEERS WANTED

The work we do at D'Arcy's ARC wouldn't be possible without our army of over 70 volunteers.

You wouldn't guess that Dan has only been here 8 short months. Dan volunteers twice a week in the morning, working with the cats. He is a great team member as well as fully capable by himself. He is very conscientious of the health and safety of our critters, and jumps at the chance to help us out in any way he can. Thank you, Dan!

Do you want to join the team? We are looking for volunteers to help in various areas of the shelter, from animal care to special events.

Volunteer applications can be found at www.darcysarc.ca or hard copies can be found at the shelter!
