## Foster Tails

Our work in alleviating animal overpopulation in the community continues, and we expect many pregnant female cats to come into our care this winter season.

Pregnant mothers are placed into foster care to raise their kittens until they are of adoptable age, at which point the mothers are spayed before they too can be adopted through the ARC.

We are seeking applicants for foster carers so we can accept more pregnant mothers, and end the cycle of pregnancy for those individuals. Applications can be found on our website, or filled out at 730B Century St.

We are also in need of kitchen scales to help foster carers keep track of the weights of growing kittens. Please reach out if you would like more information!

## Beer 'n Steer 2019

BNI hosted a Beer 'n Steer Fundraiser on Friday Nov. 8th at the Winnipeg Winter Club, raising a whopping \$6173.00!

Special thanks to performances put on by Dean Jenkinson, Inland AV & DJ Chuck Edwards, as well as all the volunteers who helped the event run so smoothly.

## Ice, Ice Baby

The winter season is trying for humans and animals alike. The extreme cold can cause a variety of problems, especially for our routine walks with our dogs. Making sure that they are wearing appropriate clothing for the weather is cute, and sometimes essential for tiny or short coated breeds.

Paws can also be damaged while walking on ice or salt, so boots are recommended as a preventative measure.

Cars pose a variety of problems during the winter months. Antifreeze is a very common cause of poisoning for animals as it can be attractive to ingest as the taste can be quite sweet. Antifreeze ingestion can be fatal as it can cause kidney failure with its effects being visible within less than a day.

Lastly, please remember to tap the hood of your vehicle before starting it to ensure there are no stray animals residing within it. Together we can make this season for merry for all, big and small.

# Alumni Stories

## Socks

This months featured ARC Alumni is Socks, who celebrated her first birthday November 1st!

Socks was born with Cerebellar hypoplasia, a neurological disorder where the cerebellum is smaller than usual or not completely developed. While socks is blind and unable to walk, she flips, rolls, and pulls herself wherever she wants to go. She was adopted with her mother, Sugar, by her foster family.

Her family can't imagine life without her, and she has taught them so much about perseverance & trust. Happy birthday, Socks!

Do you have an ARC Alumni? Send your photos and stories to [info@darcysarc.ca](mailto:info@darcysarc.ca) for a chance to be featured in an upcoming edition of The ARC-HIVE!

### CANINE CHARACTERS

This months Canine Character is Panozzo, a fun loving one year old gentleman. Panozzo loves his toys almost as much as he loves his people. He will do everything in his power to be a close to you as possible. Panozzo is looking an active household to help him get his zoomies out and work on basic puppy manners with him. He'll do almost anything for a scooby snack or a belly rub. If you have any questions about Panozzo or any of our other adoptables, please feel free to drop by the shelter or give us a call at (204) 888-2266.

### VOLUNTEERS WANTED

The work we do at D'arcy's ARC wouldn't be possible without our army of over 70 volunteers.

This month's spotlight is on Zenon. He volunteers at least twice a week, and has a versatile skillset here at the ARC due to his willingness to learn new things. He graciously picks up extra shifts whenever one of his fellow volunteers calls in sick.

Thank you Zenon for your positive attitude!

Do you want to join the team? We are looking for volunteers to help in various areas of the shelter, from animal care to special events. Volunteer applications can be found at [www.darcysarc.ca](http://www.darcysarc.ca) or hard copies can be found at the shelter!
