**NEW LOOK,
NEW NAME**

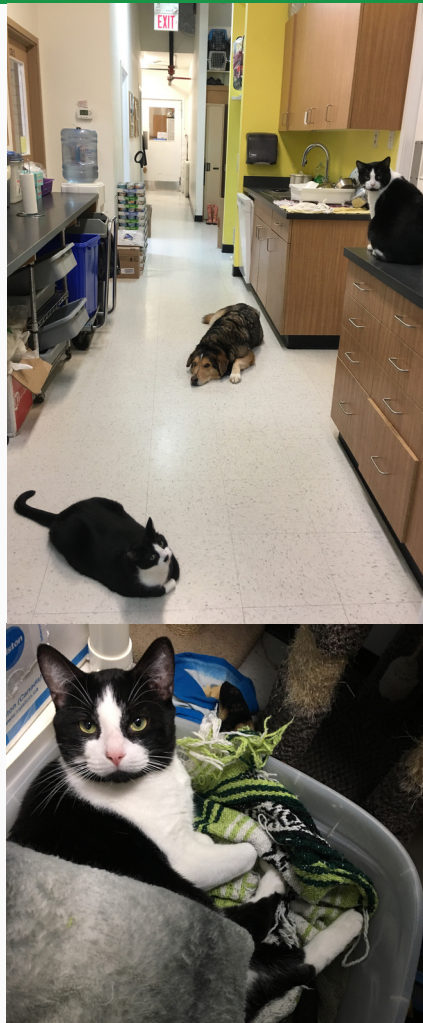

Foster Tails

Those of you who read the August edition of The Arc-Hive might remember reading about Phil, a dashing boy on a weight loss journey. We are pleased to announce that Phil has rejoined Kimba and D'Arnold, and the trio are roaming the shelter together while Phil continues to stay on his prescription diet. Phil is charming, and has a big personality. He is a busy body who wants to be a part of whatever is happening around the shelter. Come on down and say hello to Phil!

If you're interested in learning more about fostering an animal in need, please contact Shelby at the ARC at (204) 888-2266.

Beer 'n Steer Fundraiser

BNI is hosting a Beer 'n Steer Fundraiser on Friday Nov. 8th at 5:30pm at the Winnipeg Winter Club, 200 River Ave. Tickets are available at the shelter, at \$25 per person, or a reserved table of 8 for \$350. Tickets include steak, potato, salad and a Pilsner Beer, with entertainment provided by Inland AV & DJ Chuck Edwards, with a comedy preformance by Dean Jenkinson. All proceeds go to D'Arcy's ARC!

Don't You Put It In Your Mouth

With the holidays fast approaching, many of us are eager to begin decorating our homes. For some, this include decking the halls with festive plants. Many of these plants can be toxic to our canine and feline friends. Some may cause gastric upset when ingested, while others can be fatal. Poinsettia leaves for example, when ingested, can cause nausea and vomiting. If the plant is treated with a pesticide these reactions can be much more severe, especially in young animals.

Holly and mistletoe have an even higher toxicity level than poinsettia plants if ingested (whether it is the berry or leaves) and can cause severe gastrointestinal upset, a severe drop in blood pressure, and difficulty breathing.

Christmas trees can also present a health risk, not only in regards to ornaments and lights, but also the ingestion of pine leaves that can cause an obstruction or puncture in the gastrointestinal tract. This knowledge will help to make sure everyone has a safe and healthy holiday.

Alumni Stories

Mabel

This month's featured ARC Alumni is Mabel, a sweet Great Pyrenees Cross found stray in Crane River First Nation. Mabel came into our care emaciated in July of 2018, and tested positive for Heartworm Disease. With patience and love, Mabel began to trust her team, and gained enough strength to receive treatment.

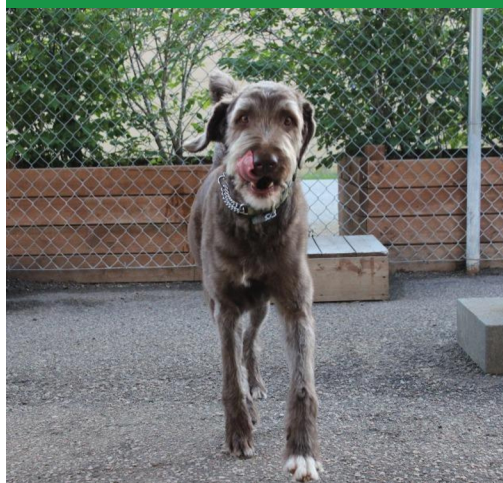

After a couple of trial runs in other homes, she was ready to meet her dog brother Teak, who proved to be great comfort to her during her anxious times. There are so many wonderful things to say about Mabel. She melted our hearts, and sure knows how to keep her mom and cat siblings Zoomer and Flax on their toes.

Do you have an ARC Alumni? Send your photos and stories to info@darcysarc.ca for a chance to be featured in an upcoming edition of The ARC-HIVE!

CANINE CHARACTERS

Murray is an extremely intelligent and energetic man that makes friends (as well as admirers) wherever he goes. Without question, he has us all wrapped around his paw. Due to his unique behavioral challenges, he will require a very experienced and understanding home (without cats or young children) in order to flourish. He loves to cuddle, but will do anything for some treats. I mean anything! If you are looking for a dog full of character Murray is most definitely your man. If you have any questions about Murray please feel free to drop by the shelter or give us a call at (204) 888-2266.

VOLUNTEERS WANTED

The work we do at D'arcy's ARC wouldn't be possible without our army of over 70 volunteers.

Desiree, a very new volunteer, is a welcome sight when she walks through the front door. She never comes empty handed, bringing treats for the humans, and handmade toys for the felines. Desiree is always looking for extra things to do, and never leaves until all the daily tasks are complete.

Do you want to join the team? We are looking for volunteers to help in various areas of the shelter, from animal care to special events.

Volunteer applications can be found at www.darcysarc.ca or hard copies can be found at the shelter!
